Coordinator Note Protests and demonstrations are occurring daily in Los Angeles as well as other cities across the Nation. Some of those public gatherings have involved instances of civil disobedience. Others have devolved into acts of violence, including vandalism, arson and looting. Film production representatives may continue to work during these times. Existing Department policy provides specific guidelines regarding police response during a tactical alert incident. Production companies need to be reminded that police response and availability during a tactical alert will be extremely limited. If an unlawful assembly has been declared and a dispersal order has been given, the Incident Commander (IC) of the Los Angeles Police Department will establish a safe working area for members of the Department and the Community. Film productions working in the City where tactical movements may exist are reminded that skirmish lines may be used to move back and forth through areas affected. Film permits may be revoked and an area declared unsafe. The decision to assume any risk of danger involved in film production remains with the individual production company making such decision. Police service and response may be severely impacted. Productions assume full responsibility for its own safety that includes personnel and production equipment used in film production.
